# Heathrow photo library

## Behind the scenes and on the ground at Heathrow.

Heathrow's commercial photo library provides unique access to the airport with a comprehensive collection of images covering all aspects of daily life at Heathrow.

The library documents some of the most advanced and successful infrastructure projects within the aviation and construction sectors. Visit the library to help promote your work within the aviation industry.

---

The team at the library look forward to working with you.

Making every journey better

---

Welcome to the 2020 edition of the British Aviation Group Directory which provides contact details for all our Member companies, and showcasing the breadth and depth of British expertise in the aviation industry. It is a publication that is designed to meet the needs of existing and future customers in the airport and aviation sector who seek to use the increasing range of products and services that the Group's members provide.

This year we have 238 companies listed in the print edition, reflecting a Membership that operates in over 150 countries worldwide, working not only at over 60 of the world's largest airports but also at many of the smaller and most remote. We have world leading experts across almost every aspect of airport development and operation, from strategic business planning to supply of operational services and equipment, as set out in the full listing of member services overleaf. Our members are at the forefront of innovation across the sector – including critical areas such as air traffic control, passenger processing, aviation security and sustainability.

We are the UK's leading trade association for the sector, and work closely with the Department for International Trade (DIT) in organising airport sector overseas missions, seminars and inward visits – covering many market opportunities of potential interest to our membership. Within the UK, our programme of events provides opportunities for networking and knowledge sharing, helping to connect UK aviation clients with BAG members, and to promote collaboration across the membership.

Our website and social media platforms provide a channel for aviation clients around the world to learn more about the activities of BAG and of our member companies. The website, [www.britishaviationgroup.co.uk](http://www.britishaviationgroup.co.uk), includes a more dynamic version of the member directory – including latest industry and member news. Our online presence also supports sharing of market intelligence between members on industry trends and major project opportunities, and helps to connect members with common interest in particular opportunities.

I hope that this Directory and our website provide you with a comprehensive guide to the range of products & services offered by UK companies, and an effective introduction to the particular expertise of individual BAG members. If you cannot find what you are looking for, please contact me on [chair@britishaviationgroup.co.uk](mailto:chair@britishaviationgroup.co.uk) and I'd be delighted to help.

A handwritten signature in black ink, appearing to read 'Mike Forster'.

# INTRODUCTION TO THE BRITISH AVIATION GROUP

The British Aviation Group is the leading representative body for British companies involved in aviation and airport development and operations.

We provide world-class expertise to meet the challenges of the global aviation industry, creating the airports of the future through the power of our network.

Companies in this Directory have capabilities which represent the full spectrum of aviation expertise. This expertise is applied across the whole project life-cycle, from Strategic Advice and Design, Construction and Equipment Supply to the Operation of the complete facility. Within the Directory, the Index of Products and Services makes it clear which part of the life cycle each company has their expertise in.

Our Members' expertise has been honed in a successful British industry, which was one of the first to liberalise and commercialise its airports. British airports are all self-sufficient business enterprises which do not rely on central government subsidies and are major contributors to the economic well-being of their respective regions within the UK.

British companies export their knowledge, experience and products to many of the world's major airport projects and are capable of addressing the challenges created by the changing nature of the aviation industry. Many lessons have been learned and British Aviation Group members are keen to share their experience.

Airport and aviation development projects require a wide range of skills and capabilities. Selecting suppliers, consultants and operators with a good reputation, experience and track record from the global marketplace is a difficult task and BAG acts as a first port of call for Global Clients by:

- **Identifying member companies that will meet your specific requirements.**
- **Facilitating contact with member companies that you wish to work with.**
- **Organising a programme of meetings with specific member companies in the UK.**
- **Organising a targeted delegation to visit your airport and discuss requirements.**
- **Circulating project opportunities requirements to relevant UK companies.**
- **Providing further information on BAG activities and details of how to become listed in future editions of this directory.**

# MEMBER CAPABILITIES

## Consulting/Advising

Includes:

- Acoustic Research and Measurement
- Airport Planners and Master Planners
- Architects
- Civil and Structural Engineering Design
- Conference Organisers
- Cost Consultants/Quality Surveyors
- Engineering and Infrastructure
- Environmental Consultants
- Finance and Insurance
- Legal
- Privatisation Consultants
- Procurement Consultancy
- Recruitment and HR Consultants
- Route Development and Marketing
- Website Design

## Landside systems

Includes:

- Airport Car Parks

## Terminal Building

Includes:

- Acoustic Research and Measurement
- Airport Managers
- Airport Planners and Master Planners
- Architects
- Civil and Structural Engineering Design
- Cranes, teleplatforms, Hoists and Drivers
- Cost Consultants/Quality Surveyors
- Drainage Systems
- Electro Acoustic Consultants
- Engineering and Infrastructure
- Environmental Consultants
- Management and operations Consultants
- Materials (Flooring and Coatings)
- M & E Contractors
- Procurement Consultancy
- Project Management
- Simulation
- Terminal Construction
- Training
- Ventilation Systems

## Terminal equipment / fit out

Includes:

- Airport Furniture
- Airport Planners and Master Planners
- Architects
- Architectural Hardware
- Civil and Structural Engineering Design
- Cost Consultants/Quality Surveyors
- Electro Acoustic Consultants
- Engineering and Infrastructure
- Environmental Consultants
- Interior Design
- Materials (Flooring and Coatings)
- Signage

## Retail excluding concession fit out

Includes:

- Commercial Space Planning
- Concessionaires/Retail Management
- Digital Marketing
- Retail Design

## Baggage and cargo handling

Includes:

- Baggage Handling
- Cargo/Cargo Handling/Cargo Safety
- Cranes, teleplatforms, Hoists and Drivers
- Docking Systems

- Hangars and Hangar Doors
- X-Ray Equipment

## Communications & Systems

Includes:

- Airport Operational Database
- Building and Management Systems
- Display Systems
- E-Flight Services
- In-Site Voice and Data Communications
- Public Address (VA) Design
- Strategic Communication Reviews
- System Integration
- Support and maintenance
- Ticketing and Check-in

## Passenger Transport Systems

Includes:

- Automated People Mover

## Safety and Security Systems

Includes:

- Equipment/Systems
- Health and Safety Consultancy
- Public Address (VA) Design
- Training
- X-Ray Equipment

## Runway & Taxiway / airfield

Includes:

- Aircraft Maintenance
- Airfield Lighting
- Airfield Pavement Rehabilitation
- Airfield Pavement Structural Assessment and Design
- Airfield, Runway and Taxi Lighting
- Airport Planners and Master Planners
- Apron and Ground Support Equipment
- Architects
- Birdstrike Prevention
- Civil and Structural Engineering Design
- Cost Consultants/Quality Surveyors
- Drainage Systems
- Engineering and Infrastructure
- Environmental Consultants
- Materials and Pavement Testing
- Pavement Testing
- Project Management
- Ramp Constructions
- Runways, Aprons and Taxiways
- Training
- Winter Services

## Ancillary facilities

Includes:

- Cranes, teleplatforms, Hoists and Drivers
- Docking Systems
- Hangars and Hangar Doors

## Fuel farm

Includes:

- Refuelling and Hydrant Services

## ATC

Includes:

- Control Towers
- Flight Data Management Services
- Ground to Air Communications
- Meteorological Equipment
- Nav aids
- Radar

The British Aviation Group is the leading representative body for British companies involved in aviation and airport development and operations. We provide world class expertise to meet the challenges of global airports and we are the first port of call for global clients to connect to the full spectrum of British aviation expertise delivering solutions for airports large and small. We have had amazing success working in over 150 countries and at the 60 largest airports delivering value, efficiency, sustainability and resilience.

Working closely with the UK's Department for International Trade we provide access to intelligence on priority markets and business opportunities, connect with key decision makers through events and trade missions, provide industry news, opportunities to network build collaborative relationships. We offer a range of benefits to our Members to help them access new business by promoting their business to an international audience, informing them of the latest opportunities in the sector and facilitating networking opportunities.

## SOME OF OUR BENEFITS INCLUDE:

- ACCESS TO 240+ MEMBER COMPANIES
- A WIDE RANGE OF EVENTS
- BUSINESS INTELLIGENCE
- SPECIAL INTEREST GROUPS
- BAG REGIONS
- BAG PROMOTIONS
- COLLABORATION WITH DIT & STRATEGIC PARTNERS

If you would like to discuss membership in more detail, please contact **Hannah Sallabanks, Senior Manager**

 **+44 (0) 20 7091 7847**

 **[Hannah.sallabanks@britishaviationgroup.co.uk](mailto:Hannah.sallabanks@britishaviationgroup.co.uk)**

## 3DREID

**1 Hills Place, London, W1F 7SA**

**Contact:** Paul Green - Director, Head of Aviation

**Tel:** +44 (0)3452 716 100

**Email:** paul.green@3dreid.com

**Website:** www.3DReid.com

3DReid has designed all aspects of an airfield's operation from logistics, operational and support buildings to passenger terminals and has a keen understanding of the political, business and stakeholder drivers. We have designed both new build facilities and extensive terminal refurbishments and extensions. Our UK airport experience covers over 20 airports and includes small civil airports, executive terminals (FBO's) and major hubs including framework positions for both Heathrow and Gatwick. We have worked across a number of major airports globally including a new airport in Brazil, Gibraltar; Abu Dhabi International Airport; Antigua; Libya; Hong Kong International Airport, Male in the Maldives and Moscow.

**Capabilities:**

**Ancillary Facilities (D), ATC (D), Baggage and Cargo Handling (D), Consulting / Advising (D, SA), Retail Excluding Concession Fit Out (D), Runway & Taxiway / Airfield (D, SA), Safety and Security Systems (D), Terminal Building (D)**

## 40SEVEN LTD

**Cross Green Way, Leeds, LS9 0SE**

**Contact:** Martyn Utley

**Tel:** +44(0)7770 607 2703

**Email:** MUtley@40seven.com

**Website:** www.40seven.com

40SEVEN provide Specialist Surveying services across the UK. We deliver complete solutions for our clients by combining all aspects in a one source package. Utilising the latest innovations in surveying technology, enables us to reduce the overall project cost for our clients through improved productivity and efficiency. We specialise in providing Topographical, Underground Utility and Measured Building Surveys to the Construction, Highways, Aviation and Utility sectors. We pride ourselves on working closely with our clients to deliver quality data to their specific requirements and timescales, whilst always maintaining an uncompromising level of safety.

**Capabilities:**

**Consulting / Advising (C, O, SA)**

## 5PLUS ARCHITECTS

**25 Chart Street, London, N1 6FA**

**Contact:** Adam Thornton - Director

**Tel:** +44 (0)20 7253 7644

**Email:** athornton@5plusarchitects.com

**Website:** www.5plusarchitects.com

Advancing technology, passenger expectations of service quality and bigger, newer planes are driving much of the aviation work that 5plus architects is delivering. We work on a variety of aviation focused projects, large and small, glamorous and mundane, where our masterplanning, architectural, interior design and graphic design skills bring added value. Our recent commissions include the upgraded passenger experience from check-in to IDL at Stansted and East Midlands Airports, the Escape Lounges in 4 locations nationwide, a new arrivals terminal at Bournemouth Airport, the Masterplan for Airport City Manchester and various projects at Leeds Bradford, London Luton and Heathrow Airports.

**Capabilities:**

**Ancillary Facilities (D, SA), Baggage and Cargo Handling (D, SA), Consulting / Advising (D, SA), Landside Systems (D, SA), Passenger Transport Systems (D, SA), Retail Excluding Concession Fit Out (D, SA), Runway & Taxiway / Airfield (D, SA), Safety and Security Systems (D, SA), Terminal Building (D, SA), Terminal Equipment / Fit Out (D, SA)**

## ACO TECHNOLOGIES PLC

**Hitchin Road, Shefford, SG17 5TE**

**Contact:** Gary Morton - Head of Stakeholder Engagement

**Tel:** +44 (0)1462 816 666 **Fax:** +44 (0)1462 815 895

**Email:** technologies@aco.co.uk

**Website:** www.aco.co.uk

ACO is a world leader in the design, development and implementation of sustainable surface water management systems. For over 50 years ACO has pioneered unique solutions that satisfy the need for high performance, environmental excellence, optimal return on investment and long operational life across a vast range of applications. ACO's product ranges have been used extensively throughout the modern airport environment overcoming significant design challenges and to satisfy demanding aesthetic requirements. Investment in leading technology, design expertise and rigorous quality management ensures absolute consistency and levels of assurance.

**Capabilities:**

**Runway & Taxiway / Airfield (ES), Terminal Building (ES), Terminal Equipment / Fit Out (ES)**

# MEMBERS' INDEX

## ADB SAFEGATE AIRPORT SYSTEMS UK LTD

**The Oaks, Crewe Road, Wythenshawe, Manchester, M23 9SS**

**Contact:** John Wordley - Global Sales & Marketing Director

**Tel:** +44 (0)161 946 3600 **Fax:** +44 (0)161 946 3601

**Email:** john.wordley@airport-systems.com

**Website:** www.adbsafegate.com

ADB SAFEGATE provides integrated solutions that raise efficiency, improve safety, boost environmental sustainability and reduce operational costs for airports, airlines and ANSPs. The company works with airports and airlines to solve operational bottlenecks from approach to departure. Solutions encompass airfield lighting, tower-based traffic control systems, intelligent docking automation and services, as well as applying advanced IT and analytics to deliver industry-leading Total Airport Management. With more than 1,200 employees, ADB SAFEGATE serves more than 2,500 airports in more than 175 countries, from the largest like Atlanta, Dubai, Heathrow, Frankfurt, Istanbul and Changi to fast-growing airports across Asia and Africa.

**Capabilities:**

**Baggage and Cargo Handling (D, ES, O, SA), Communications & Systems (C, D, ES, O, SA), Consulting / Advising (D, ES, O, SA), Landside Systems (C, D, ES, O, SA), Passenger Transport Systems (C, D, ES, O, SA), Terminal Building (ES)**

## ADXBA

**Unit 33 The Bell Centre, Newton Road, Crawley, RH10 9NE**

**Contact:** Guy Message - Client Director

**Tel:** +44 (0)161 850 2233

**Email:** guymessage@adxba.co.uk

**Website:** www.adxba.co.uk

At ADXBA we understand the power of connection. As an industry leader in digital communications, we deliver end-to-end digital signage solutions to a growing list of clients in the airports and out of home (OOH) industries. Our integrated services connect to form a complete solution, bringing customer experience to the heart of some of the biggest airport in the world.

**Capabilities:**

**Communications & Systems (ES), Consulting / Advising (C, D, ES, O, SA), Landside Systems (C, D, ES, O, SA), Retail Excluding Concession Fit Out (C, D, ES, O, SA), Terminal Building (C, D, ES, O, SA), Terminal Equipment / Fit Out (C, D, ES, O, SA)**

## AECOM

**Midpoint, Alencon Link, Basingstoke, RG217PP**

**Contact:** Mike Jackson - Technical Director, Aviation, EMIA

**Tel:** +44 (0)1256 310 200 **Fax:** +44 (0)1256 310 201

**Email:** mike.jackson1@aecom.com

**Website:** www.aecom.com

AECOM is a global provider of technical services to airport owners, investors, airlines and aviation clients, leading and supporting programs for airports of all sizes and forms. With experience at over 150 major airports worldwide, we use our global network of expertise and local knowledge to deliver collaborative aviation solutions across projects and continents. Our multi-disciplined, skilled professionals are able to support any project every step of the way, from finance and analysis to masterplanning, programme management, design and construction services.

**Capabilities:**

**Ancillary Facilities (C, D, SA), ATC (C, D), Baggage and Cargo Handling (C, SA), Communications & Systems (D, SA), Consulting / Advising (C, D, SA), Fuel Farm (C, D), Landside Systems (C, D, O, SA), Passenger Transport Systems (C, D, SA), Retail Excluding Concession Fit Out (D), Runway & Taxiway / Airfield (C, D, O, SA), Safety and Security Systems (D), Terminal Building (C, D, O, SA), Terminal Equipment / Fit Out (C, D)**

## AERONAUTICAL & GENERAL INSTRUMENTS LIMITED

**Fleets Point, Willis Way, Poole, BH15 3SS**

**Contact:** Simon Foster - Business & Sales Development Manager

**Tel:** +44 (0)1202 685 661 **Fax:** +44 (0)1202 685 670

**Email:** simon.foster@agiltld.co.uk

**Website:** www.agiltld.co.uk

AGI has two business groups focused on the airport market: AGI Ltd Airfield Ground Lighting offers a full range of battery operated portable equipment covering runway and taxiway edge lights, approach lights and PAPI's. The latest product release of a Solar charging unit combined with our battery powered LED aviation lights. The benefit of utilising a solution specifically designed for airfield use is its modular nature, designed to be installed on any side of the light at a variable angle ensuring maximum solar collection for extended run times. AGI Ltd's Meteorological Systems business unit designs and manufactures aviation weather systems including fully integrated Automatic Weather Observing Systems (AWOS) and stand-alone surface wind and runway visual range systems.

**Capabilities:**

**Runway & Taxiway / Airfield (D, ES)**

**Consulting / Advising (C, O, SA), Runway & Taxiway / Airfield (C, O, SA)**

## AMS ACOUSTICS LIMITED

---

**104 Fox Lane, London, N13 4AX**

**Contact:** Barry Goddard - Business Development Director

**Tel:** +44 (0)20 8886 4060 **Fax:** +44 (0)20 8886 4442

**Email:** bgoddard@amsacoustics.com

**Website:** www.amsacoustics.com

AMS Acoustics is an independent multidisciplinary acoustic consultancy established for over 30 years and market leader within public address and voice alarm systems design, worldwide. In addition we provide consultancy services for writing the operational specification, project management, commissioning and finally ensuring the system is maintained in accordance with relevant standards. AMS has established a reputation by undertaking contracts for numerous public organisations, large blue chip companies and privatised utilities. We have long standing consultancy relationships working on projects for primary domestic airports in addition to commissions within the Middle East. We operate a Quality Management system that has gained ISO 9001:2018 certification and are RISQS certified and BSI accredited. Additionally, AMS is a sponsoring organisation of the Institute of Acoustics (IOA) and supporting member of the Institute of Sound and Communications Engineers (ISCE).

**Capabilities:**

**Communications & Systems (D, SA), Consulting / Advising (D, SA), Safety and Security Systems (D, SA), Terminal Building (SA)**

**Website:** www.benoy.com

We are Benoy. A global family of design specialists committed to delivering world-class solutions for the built environment. Balancing creative vision with commercial viability, we work with clients to create iconic destinations that enrich people's lives, strengthen communities, enhance nature, and deliver lasting economic value. We specialise principally in master planning, exterior and interior design, using what we call 'creative commerciality' to solve problems and unlock potential. Our aim is to be at the cutting-edge of everything we do, and to be profitable and sustainable for all our stakeholders. Unconstrained by sectoral parameters, building formats, head office agendas or egos, we focus on agile, flexible, and experiential design. Design that is tailored to the needs of the people who live in, work in, and use the destinations we create. We partner with our clients, sharing their ambitions, frustrations and success - helping create a lasting legacy through the built environment.

Saffron Walden, CB10 1NY**

**Contact:** Sales Enquiries

**Tel:** +44 (0)1223 491 122

**Email:** [Sales@blighter.com](mailto:Sales@blighter.com)

**Website:** [www.blighter.com](http://www.blighter.com)

Blighter Surveillance Systems Ltd (BSS) is a UK-based radar specialist SME offering tailored security solutions to monitor airport controlled and restricted zones and their perimeters. Building on the Blighter radar's ability to reliably detect small, slow-moving targets 24/7 such as intruders crawling under a perimeter fence, BSS is able to integrate its radars with existing security infrastructure such as CCTV and its VMS, fence detection systems and transponder identity systems. The resulting systems are able to provide airport operators with an enhanced, comprehensive and robust security picture, with minimal false alarms. Experience has shown that a Blighter radar installation will not only improve intruder detection, but it can also offer substantial savings through reduced manned security surveillance requirements. Successful airport installations include London's Heathrow and Stansted airports, as well as installations in South America, Europe and MENA.

**Capabilities:**

**Safety and Security Systems (ES)**

The British-Irish Airports EXPO provides the UK and Ireland with a unique regional focus for airports, airlines and the supply chain to network and do business together. The 2020 British-Irish Airports EXPO is relocating to ExCeL, the UK's most prestigious event location, centrally placed in Docklands between Canary Wharf and London City Airport. Indeed, London City Airport is one of the core airports partners along with Heathrow, London Stansted and London Gatwick in a new "Hosting Airport Coalition" which supersedes the single-airport hosting model, cementing the EXPO's focus on operational, safety and commercial interests held in common. Taking place 9-10 June 2020, 3,000 visitors will attend to learn through the conference programme how to continue to create safe, secure and more sustainable operations. 180 exhibitors also take part in the EXPO and will be on-hand to explain how their technologies, innovations and solutions can help create better outcomes for the industry and deliver even greater passenger experiences. The EXPO is also endorsed by the British Aviation Group, the Department for International Trade, and the Regional & Business Airports Group (RABA).

Founded in 1989, BEC provide installation and servicing of Building Energy Management Systems (BEMS). Our work at various airports including Manchester, East Midlands, and Stansted, includes controls for Heating, Ventilation and Air Conditioning, DALI lighting, Surface Water Drainage and condition monitoring of numerous key airport systems including Airbridges, UPS units, lifts and auto walks. We offer integration to the flight information systems, so automatic adjustment to both temperature and light levels is achieved as flights arrive and depart. In addition to BEMS, we offer Energy Analytics software to ensure the plant is operating as efficiently as possible to varying requirements.

**Capabilities:**

**Communications & Systems (E, O, SA), Consulting / Advising (SA), Landside Systems (ES, O, SA), Terminal Building (ES, O, SA), Terminal Equipment / Fit Out (ES, O, SA)**

GKN Aerospace is the aerospace division of GKN plc, and is structured into three product-focused businesses, engine products, aerostructures and special products. GKN Aerospace's operations are global, employ over 10,000 people and supply all the major airframe and aero engine manufacturers. The company areas of expertise include composite materials, high precision metallics and transparencies. It is recognised as one of the leading independent suppliers of composite structures for civil and military aircraft and offers a full range of metal fabrication facilities manufacturing complex, high performance assemblies for aero-engines and airframes. In transparencies, the company is the leading supplier to the military and civil aerospace market.

### GRIMSHAW

**57 Clerkenwell Road, London, EC1M 5NG**

**Contact:** Mark Middleton - Partner

**Tel:** +44 (0)20 7291 4141 **Fax:** +44 (0)20 7291 4194

**Email:** Mark.Middleton@grimshaw.global

**Website:** www.grimshaw.global

Grimshaw is an international architecture firm that specialises in transport projects of national importance. Grimshaw is highly regarded in this particular sector for providing design leadership to projects that have strict cost, programme and highly aspirational outcomes at their core. Our portfolio of completed work includes projects in the UK, Germany, the Netherlands, Spain, Switzerland, Australia, North America and Mexico. The practice specialises in helping aviation clients decarbonise their estates through efficient master planning and building designs which benefit from extensive experience in long-span structures and efficient form-finding parametrics. These skills support Grimshaw's on-going research and development thesis, including low-cost carrier terminal buildings. Grimshaw have committed to net zero carbon designs by 2030.

**Capabilities:**

**Baggage and Cargo Handling (D, SA), Communications & Systems (SA), Consulting / Advising (D, SA), Landside Systems (D, SA), Passenger Transport Systems (D, SA), Retail Excluding Concession Fit Out (D, SA), Runway & Taxiway / Airfield (SA), Safety and Security Systems (SA), Terminal Building (D, SA), Terminal Equipment / Fit Out (D, SA)**

## HAPTIC ARCHITECTS

---

**77 White Lion Street, London, N1 9PF**

**Contact:** Dimitris Argyros - Senior Architect

**Tel:** +44 (0)20 7099 2933

**Email:** dimitris@hapticarchitects.com

**Website:** www.hapticarchitects.com

Established in 2009, we are based in London and Oslo. Our designs are inspired by nature and formed through a critical, iterative design process. A strong emphasis is given to the user experience. Haptic means related to the sense of touch. A shift away from the optical to the haptical benefits the users of our buildings. We are currently working on airports, hotels, conference facilities, masterplans, mixed-use residential, exhibition spaces and private dwellings.

## HART DOOR SYSTEMS LTD

---

**Redburn Road, Westerhope Industrial Estate,  
Newcastle Upon Tyne, NE5 1PJ**

**Contact:** Alan Richardson - Contracts Manager

**Tel:** +44 (0)1912 140 404

**Email:** alan@hartdoors.com

**Website:** www.hartdoors.com

We manufacture, install and maintain long lasting vertical rolling doors / shutters for new and expanding airports. Experience includes Heathrow and 40 others worldwide. We enhance efficiency, safety, fire protection and security in: Conveyors; Baggage handling; Storage and access; Retail shop fronts. These high speed and automatic doors can be retro-fit or in collaboration with main contractors or baggage equipment manufacturers. Advantages to airports include: Protection of staff and visitors with high-speed fire and smoke screens; Capacity for up to 6,000 bags per hour; Smoke proof and sealing for 30 minutes to 240 minutes; Interface with conveyor systems and other electronic systems. Hart has major project experience such as 177 fire and security shutters supplied to King Abdul Aziz Airport, Jeddah.

**Capabilities:**

**Baggage and Cargo Handling (C, ES), Retail Excluding Concession Fit Out (C, ES), Terminal Building (C, ES)**

## HOTCHKISS LIMITED

**7 Marshall Road, Hampden Park Industrial Estate, Eastbourne, BN22 9AX**

**Contact:** Ash Delsol - Business Development Director

**Tel:** +44 (0)1323 501 234

**Email:** ashdelsol@hotchkiss.co.uk

**Website:** www.hotchkiss.co.uk

With our beginnings in 1885, Hotchkiss Limited is a market leader in the sector of manufacture, supply and installation of ductwork ventilation services. We take pride in being a specialist trade contractor that has the capabilities of self-performance. We undertake projects large and small focusing on delivery and quality. We can either engage as a specialist contractor providing full airside package, or more traditionally, as a ductwork subcontractor. However, it is our belief that when we are engaged as a specialist on a full airside package we are given the opportunity by the client to work more closely with the professional team and bring our expertise and experience to the project. The airport projects we have undertaken range from the iconic T5 building at Heathrow to damper maintenance at Gatwick. We have a wealth of experience in the aviation sector which we have been working in since 1983.

**Capabilities:**

**Terminal Building (ES, SA), Terminal Equipment / Fit Out (ES, SA)**

## KAVIAR AVIATION LTD

**47 Park View Road, Salfords, Redhill, RH1 5DW**

**Contact:** Keith Robinson - Architect / Managing Director

**Tel:** +44 (0)7734 553 616

**Email:** keith.robinson@kaviaraviation.com

**Website:** www.kaviaraviation.com

Since I formed Kaviar Aviation in 2012 I have completed several significant airport planning and design projects in the UK, Europe the Middle East, Asia and Africa. I have experience in all stages of Airport Terminal Planning - most recently this has involved Master Planning and fast-track Technical Assessments of Terminal proposals - adding Value Engineering support for major clients to improve designs and reduce costs. From 2001 to 2012, I established Pascall+Watson's unique Airport Planning Team. From 1991 to 2001, I led TPS Consult's specialist Airport Architects Group. I embrace sustainable, climatic design which combines local vernacular - 'a sense of place' - with the exciting design opportunities of modern air travel and construction. My aviation portfolio covers 140 projects in 40 countries including world class airport projects at Madrid T4, Heathrow T5, London City, Dublin T2, Zurich, Bahrain, Istanbul, Kansai, Kuwait, Lima, Madinah, Oman, Pulkovo, Riyadh, and Siem Reap.

## NORDIC OFFICE OF ARCHITECTURE

---

**74-77 White Lion Street, London, N1 9PF**

**Contact:** Marcus Lee

**Tel:** +44 (0)7810 058 532

**Email:** mlee@nordicarch.com

**Website:** www.nordicarch.com

Nordic Office of Architecture was established in 1979 under the name of Narud Stokke Wiig (NSW). Nordic emerged in 1992, when NSW was split into two separate companies, and was renamed in 2012. Our Copenhagen and London offices opened in 2013 and 2015. Airport planning and design - When Istanbul New Airport is finished, it will not only be the largest airport in the world, it will also be a testimony to one of Nordic's core fields of expertise; airport design. Master planning and executing major airport hubs and smaller terminals alike, we always design for functionality and long-term flexibility, creating flow and effective logistics. Nordic made its name in aviation through the award winning Oslo airport and recently completed Bergen and working on an extension to Tromsø Airport in the Arctic circle.

The Westminster Group Plc is a highly experienced and internationally acclaimed security group operating worldwide through an international network of agents and offices in over 50 countries. The Group provides and supports a wide range of advanced security solutions together with the provision of long term managed services, consultancy and training services. The Group's aviation security division, Westminster Aviation Security Services Limited, is able to provide the investment, expertise and support required to assist airport authorities with equipment, processes, training & maintenance to achieve the highest standards of aviation security including long term AVSEC support services under Build-Operate-Transfer arrangements. See www.wass-ltd.com. The Group's technology division, Westminster International Limited, provides products, services and solutions worldwide.

**Capabilities:**

**Baggage and Cargo Handling (C, D, ES, O, SA), Safety and Security Systems (C, D, ES, O, SA)**

## WESTONWILLIAMSON+PARTNERS LLP

**12 Valentine Place, London, SE1 8QH**

**Contact:** Alex Kirkwood - Partner

**Tel:** +44 (0)20 7401 8877 **Fax:** +44 (0)20 7401 8349

**Email:** alex.kirkwood@westonwilliamson.com

**Website:** www.westonwilliamson.com

WestonWilliamson+Partners is a multi-disciplinary architectural practice with an award-winning history of design and delivery of mainly major transport projects. 2015 marked our 30th anniversary, three decades over which we have worked on some of the largest infrastructure projects in the UK and abroad. We are now bringing our years of experience to the aviation sector. Alex Kirkwood, a well recognised aviation expert, and his team have joined us, bringing world-class experience in airport design & delivery to our practice. This includes a number of large-scale airport developments; T2A Heathrow, KAIA International Airport, Istanbul New Airport, T2 Dublin and T5A Heathrow.

**Capabilities:**

**Consulting / Advising (D, SA), Landside Systems (SA), Passenger Transport Systems (SA), Retail Excluding Concession Fit Out (D, SA), Runway & Taxiway / Airfield (SA), Terminal Building (D, SA), Terminal Equipment / Fit Out (D, SA)**

## WILDSTONE CONSULTING

**22 Berghem Mews, Blythe Road, London, W14 0HN**

**Contact:** Paula Oliver

**Tel:** +44 (0)20 7313 9571

**Email:** paula.wildstone.co.uk

**Website:** www.wildstoneconsulting.co.uk

Wildstone is the market leader in Advertising Consultancy, dedicated to providing independent advice and knowledge and delivering iconic, design-led OOH locations & Digitalising media offer. Wildstone maximises revenue potential in transit hubs by:

Optimising advertising inventories; Providing Bespoke content solutions; Tender preparation, management and guidance; Strategic long-term partnerships; Extensive Market knowledge. Wildstone's Consultancy team has international experience in developing advertising at airports, rail stations, roadside and retail spaces. Wildstone also has an extensive knowledge of future-proofing and media agency strategy and in addition. With an in-house Design, Planning and Build team, Wildstone Consulting is perfectly suited in providing end-to-end advice for advertising inventory development.

**Capabilities:**

**Ancillary Facilities (D, SA), Consulting / Advising (C, D, SA), Passenger Transport Systems (SA), Retail Excluding Concession Fit Out (D, SA), Terminal Building (D, SA), Terminal Equipment / Fit Out (SA)**

## WILSON JAMES

**Colnbrook Logistics Centre, Slough, SL3 0EB**

**Contact:** Dee Thomas

**Tel:** +44 (0)20 8757 4110

**Email:** dee.thomas@wilsonjames.co.uk

**Website:** www.wilsonjames.co.uk

Wilson James has over 25 years' experience in the aviation industry, working with airports across the UK. Our understanding of the unique operational and compliance requirements of the aviation sector enables us to provide safe, efficient solutions. We understand the importance of the passenger experience and ensure that safety and security are always top priorities. Wilson James delivers a diverse range of services including aviation security, passenger and premium services, airport operations and construction logistics, consultancy and training.

**Capabilities:**

**Baggage and Cargo Handling (O), Consulting / Advising (O, SA), Passenger Transport Systems (O), Retail Excluding Concession Fit Out (C, O), Safety and Security Systems (O), Terminal Building (C), Terminal Equipment / Fit Out (C)**

---

## WISE TECHNICAL LIMITED

**Building 3 Heathrow Boulevard, 282 Bath Road,  
West Drayton, UB7 0DQ**

**Contact:** Craig Woodage - Director

**Tel:** +44 (0)20 8058 1991

**Email:** craig@wisetechltd.com

**Website:** www.wisetechltd.com

Wise Technical provides independent, unbiased knowledge and technical expertise on baggage integration via consultancy, innovative tools and robust processes. This empowers airports to optimise their existing infrastructure developments, new project deliveries and maintenance functions while supporting airports to achieve technical self-sustainability. Our goal is to establish strategic partnerships allowing clients the freedom to work with us openly and honestly, encouraging shared ownership and accountability, resulting in long-term trusting relationships.

**Capabilities:**

**Baggage and Cargo Handling (O, SA)**

---

## WME BOOM

**Mindspace Aldgate, 114 Whitechapel High Street,  
London, E1 7PT**

**Contact:** James Warne, Director

**Tel:** +44 (0)20 3637 2722

**Email:** james.warne@boomcollective.eu

**Website:** boomcollective.eu

Across the Aviation Industry, continual improvement in passenger experience and technological advancement must push design teams to improve on previous experience. WME boom is an international engineering practice that provide value through innovative and sustainable design. Our designs focus on operational outcomes, measuring success centred on performance-based metrics for the built environment. We provide a full range of engineering services including MEP, C&S, infrastructure, sustainability, AV & IT, Wellbeing and Post Occupancy Evaluation. Our collaborative working practices, coupled with understanding of emerging trends and technology facilitate timely delivery of modern methods of construction, DfME, and better performance within the built environment.

**Capabilities:**

**Consulting / Advising (D, SA)**

---

## WOOD.

**25 Canada Square, Floor 12, Canary Wharf, E14 5LB**

**Contact:** Toby Gibbs - Director

**Tel:** +44 (0)20 3215 1615

**Email:** toby.gibbs@amecfw.com

**Website:** www.woodplc.com

Wood is a global leader in the delivery of project, engineering and technical services to energy and industrial markets. We operate in more than 60 countries, employing around 55,000 people, with revenues of over \$11 billion. We provide performance-driven solutions throughout the asset life cycle, from concept to decommissioning across a broad range of industrial markets including upstream, midstream and downstream oil & gas, chemicals, transport, power & process, clean energy, mining, nuclear and general industrial sectors. We strive to be the best technical services company to work with, work for and invest in.

**Capabilities:**

**Ancillary Facilities (C, D, O, SA), Baggage and Cargo Handling (D, ES, O, SA), Communications & Systems (SA), Consulting / Advising (C, D, O, SA), Fuel Farm (C, D, O, SA), Landside Systems (C, D, SA), Passenger Transport Systems (C, D, SA), Runway & Taxiway / Airfield (C, D, O, SA), Terminal Building (C, D, SA)**

## WSP

---

**WSP House, 70 Chancery Lane, London, WC2A 1AF**

**Contact:** Tim Morrison - UK Aviation Director

**Tel:** +44 (0)20 7314 5000 **Fax:** +44 (0)20 7314 5111

**Email:** tim.morrison@wsp.com

**Website:** www.wsp.com

WSP has been providing airport owners, operators and investors with safe, innovative, sustainable and practical solutions around the world for over 50 years. As one of the world's leading engineering and environmental consultants, we provide comprehensive support for our clients at all stages, from planning, design construction, commissioning, handover and operation. Our award winning teams are known for seamless integrated project management, design expertise and successful delivery of Masterplans, Architectural and Engineering solutions and all Airport System strategies. Our philosophy delivers airports that are, efficient, safe, enjoyable, financially sound and future-ready.

**Capabilities:**

**Ancillary Facilities (D, SA), Baggage and Cargo Handling (D), Communications & Systems (D), Consulting / Advising (SA), Landside Systems (D, SA), Passenger Transport Systems (D, SA), Retail Excluding Concession Fit Out (D), Runway & Taxiway / Airfield (D, SA), Safety and Security Systems (D, SA), Terminal Building (D, SA), Terminal Equipment / Fit Out (D, SA)**

## ZAHA HADID ARCHITECTS

---

**10 Bowling Green Lane, London, EC1R 0BQ**

**Contact:** Marcella Fedele - Acquisitions Lead

**Tel:** +44 (0)20 7253 5147

**Email:** projects@zaha-hadid.com

**Website:** www.zaha-hadid.com

We work at all scales and in all sectors. We create transformational cultural, corporate, residential and other spaces that work in synchronicity with their surroundings.

**Capabilities:**

**Terminal Building (D)**

## ZOEFTIG LTD

---

**Kings Hill Industrial Estate, Bude, EX23 8QN**

**Contact:** Paul Williams - CEO & Commercial Director

**Tel:** +44 (0)1288 354 512 **Fax:** +44 (0)1288 355 954

**Email:** pwilliams@zoeftig.com

**Website:** www.zoeftig.com

Zoeftig is a specialist international supplier of passenger terminal seating, offering a versatile range of products from its beam solutions such as Zenky and Zenky+ to the uniquely beamless system inFINITE. Zoeftig's seating systems enable a wide choice of linear, curved and more exclusive cluster configurations and can be complemented with fully integrated power outlets as well as PRM options. Zoeftig's growing range of in-seat power units is designed to facilitate power across the airport for passengers' convenience and accessibility. Zoeftig's power options can deliver mains power via international socket types as well as USB ports for charging handheld devices.

**Capabilities:**

**Terminal Building (ES), Terminal Equipment / Fit Out (ES)**

The UK's premier ductwork specialist leading the way in solutions for the aviation industry.

## Ethos

- Collaborative working.
- Engineering excellence/innovation.
- Pre-assembly and off-site manufacture.
- Digital solutions.
- High standards in health and safety, environment and wellbeing.

Continually finding ways to improve in everything we do.
